Acute Severe Hypertension

LEARNING OBJECTIVES

abidi Cardio Thrombosis

TACHRA Pharmed

Ronak Pharmaceutical Co.

Acute Severe Hypertension

LEARNING OBJECTIVES

- Terminology & clinical implications:
  - Hypertension crisis
  - Emergent hypertension
  - Urgent hypertension
  - Malignant hypertension
- Appropriate BP-measurement techniques in acute severe hypertension
- Determination of precipitating factors
- Evaluation of patients with acute severe hypertension (including acute target-organ damage)

Acute Severe Hypertension

LEARNING OBJECTIVES

- Structured approach to the management of acute severe hypertension
- Medications for hypertensive emergencies & recommended doses
- Pace & intensity of BP reduction in symptomatic acute severe HTN
- Appropriate management of severe asymptomatic hypertension
- Definition & appropriate treatment of hypertensive encephalopathy

Acute Severe Hypertension

LEARNING OBJECTIVES

- Appropriate management of acute severe HTN in acute ischemic stroke
- Appropriate management of acute severe hypertension in acute intracerebral hemorrhage
- Appropriate management of acute severe hypertension in acute cardiovascular events (ACS, AHF & aortic dissection)
- Follow-up of patients with acute severe hypertension
