

# IMPACT

Daily Cardiology Journal Review

## What is Impact?

Impact is a series of educational content from Daily Cardiology Academy focused on reviewing the latest and most important articles in the field of cardiovascular medicine in the audio format.

## What to consider when producing an “Impact” episode?

- The length of the final file must not exceed 5 minutes
- The voice-over quality needs to be high; it must be recorded in a quiet environment and it should have minimum amount of interruptions.
- The voice-over can either be in English or Farsi.
- It is very important for the reviewer to have an energetic and confident voice as well as fluency.
- The final voice-over must be sent to the editorial board no later than one week from the assignment of the project.
- The discussion must be based on the abstract of the article and it has to include the following parts:
  - The title, the name of the journal, background, methods, results, conclusion, and application in daily practice
